

Concept Development Plan

Presented by Charlie Hill, Founder

Hill College acknowledges the Traditional Owners of the Menang land on which our college is made and pay our respects to Elders past, present and emerging.

We always remember that the land on which we learn, play and grow is, was and always will be sacred to Aboriginal people and we acknowledge that their sovereignty was never ceded.

Founder / Executive Director – Provides strategic leadership and oversees the organisation's vision, partnerships, governance, and long-term growth while ensuring Hill College fulfils its mission.

Director of Education & Student Success – Leads the development and delivery of educational programs, learning support, and student initiatives to improve academic outcomes and student engagement.

Director of Community Engagement – Builds relationships with schools, community, organisations, and industry partnerships while leading events, partnerships, and initiatives that strengthen student connection and opportunity.

Executive Assistant of Business Administration – Provides administrative and operational support to the Executive, coordinating communications, scheduling, documentation, and organisational processes to ensure the efficient day-to-day operations of Hill College.

Workplace Issue

Students in regional and rural communities can face greater barriers to accessing educational support, enrichment opportunities, and broader learning experiences beyond the classroom.

Geographic isolation and limited local resources can restrict access to academic assistance, career exploration, skill development, and opportunities to connect with wider educational communities, creating disparities between the experiences available to regional students and their metropolitan peers.

Proposed Solution

Hill College is an online platform that complements traditional schooling by connecting regional and rural students with accessible educational support and opportunities beyond what may be available within their local communities. The concept aims to bridge geographic gaps in education while supporting students' academic, personal, and future development.

Market Fit – Ideal Customer

**Secondary
school students
aged 12-18**

**Regional, rural,
and remote
WA**

**Want support and
opportunities
alongside school**

Market Fit

- Needs & Behaviours – Students need accessible academic support, quality learning resources, career guidance, and enrichment opportunities.
- Market Opportunity – More than 1 in 5 WA public-school students are outside metropolitan schools (roughly 73,000 students).
- Growth Potential – Launch within regional WA, validate demand, and build partnerships with schools and communities. The online model provides potential to expand.

Competitor Analysis

PRIMARY COMPETITORS

- Scotch Global
- ACC Southlands Distance Education
- Haileybury Pangea

SECONDARY COMPETITORS

- Project Academy
- Hale@Home
- Cluey Learning

WHY HILL COLLEGE?

Hill College fills the space between traditional schooling and supplementary educational support. Unlike online schools, Hill College is designed to complement a student's existing education, connecting regional and rural students with accessible learning support, enrichment and broader opportunities through one connected platform.

Competitor Analysis

ScotchGlobal

Scotch Global is the online education division of Scotch College Perth, delivering flexible, teacher-led learning to students aged 11–25 across Australia and internationally. Its programs include secondary education, academic extension, career development, and specialist courses, providing students with a high-quality digital learning experience that extends beyond the traditional classroom.

STRENGTHS

- Strong reputation as part of Scotch College Perth
- High-quality teacher-led online education and enrichment programs
- Broad range of academic and career- focused opportunities
- Well-established independent school brand with extensive resources.

WEAKNESSES

- Premium independent school model may be less accessible for some regional and rural families
- Less emphasis on creating an open, student-led community outside of academic learning
- Limited focus on addressing broader educational gaps experienced by regional students

Competitor Analysis

ACC SOUTHLANDS DISTANCE EDUCATION

ACC Southlands Distance Education is a Western Australian online school that provides Christian-based education to students from Kindergarten to Year 12. Designed to support students who require flexible learning, including those in regional and remote communities, the school delivers live online lessons, personalised teacher support, and a structured curriculum that can be accessed from home.

STRENGTHS

- Strong focus on supporting regional, remote, and home-based students
- Flexible online learning with personalised teacher support
- Structured Kindergarten to Year 12 curriculum
- Established experience in distance education within Western Australia

WEAKNESSES

- Primarily focused on delivering the school curriculum rather than broader educational enrichment
- Limited opportunities for student leadership, networking, and extracurricular development
- Christian-based education may not appeal to every student or family

Competitor Analysis

HAILEYBURY
— PANGAEA —
ONLINE SCHOOL

HAILEYBURY

Haileybury Pangea is Haileybury's fully online school, offering students in Years 5–12 a comprehensive Australian education through live virtual classrooms. Combining qualified teachers, personalised learning pathways, and interactive digital technologies, it enables students to access a high-quality independent school education from anywhere in the world while maintaining flexibility and strong academic support.

STRENGTHS

- Innovative and highly developed online learning model
- Live virtual classrooms delivered by qualified teachers
- Strong academic reputation supported by the Haileybury brand
- Personalised learning pathways and flexible study options
- Global accessibility for students regardless of location

WEAKNESSES

- Premium tuition fees may reduce accessibility for some families
- Less emphasis on community-led initiatives, educational outreach, and peer collaboration outside the classroom
- Designed primarily for academic achievement rather than addressing wider student development and educational opportunity gaps

Competitor Analysis – Matrix

Critical Success Factor	Hill College	Scotch Global	ACC Distance Education	Haileybury Pangea
Regional Accessibility	4	2	3	2
Quality of Education	4	4	3	4
Student Community & Engagement	4	3	2	3
Flexibility of Learning	4	3	3	3
Digital Learning Platform	4	4	3	4
Affordability & Value	4	2	4	2
Brand Reputation	1	4	2	4
Personal Development	4	2	2	2
TOTAL	29	24	22	24

Unique Value Proposition

Hill College bridges the education gap for regional and rural students by connecting them with accessible learning support, enrichment, and real-world opportunities beyond the classroom, all through one connected platform designed to complement their existing education.

Vision, Mission, Values

VISION

To shape a generation of curious, resilient, and open-minded young people by providing opportunities that inspire learning, strengthen community connections, and prepare students for life beyond the classroom.

MISSION

To connect young people in regional and remote communities with accessible educational and developmental opportunities that build skills, broaden perspectives, prepare them confidently for the future, and help them reach their full potential.

VALUES

Community, Equity, Education

Organisational Chart

Legal and Regulatory Considerations

- Privacy Act 1988 (Cth)
- Child Safe Standards (WA)
- Working with Children Act 2004 (WA)
- Associations Incorporation Act 2015 (WA)
- Work Health and Safety Act 202 (WA)
- Competition and Consumer Act 2010 (Cth) – Consumer Law
- Copyright Act 1968 (Cth)

Legal compliance influences how Hill College manages information, engages with students, recruits volunteers, deliver programs, and governs its operations. Compliance with privacy, child safety, copyright, and consumer protection legislation will require appropriate policies, procedures, staff training, and digital systems. These requirements help protect participants, reduce organisational risk, maintain public trust, and support the sustainable growth of Hill College.

Sustainability Considerations

ENVIRONMENTAL

Operating as an online-first organisation, reducing the need for printed resources, travel, and physical infrastructure. Where printed materials or merchandise are required, preference will be given to recyclable materials, sustainable suppliers, and environmentally responsible purchasing.

FINANCIAL

Hill College will pursue a diversified funding model to support long-term operations. Revenue may be generated through grants, sponsorships, donations, philanthropic support, funding initiatives, and strategic partnerships. As we grow, additional revenue streams may be explored to ensure financial sustainability while maintaining accessibility for students.

SOCIAL

Hill College is committed to creating equitable educational opportunities for regional and rural students by addressing gaps in access to educational support and personal development. We will promote inclusion, diversity, accessibility, and student wellbeing through flexible online learning, leadership opportunities, community engagement, and partnerships that supports students regardless of their location or background.

Potential Risks - Barriers

Hill College's success may be influenced by regulatory requirements, competition from established education providers, changing economic conditions, market acceptance, and the ability to establish trust with students, families, and educational partners.

As an online-first organisation supporting regional and rural students, digital accessibility and reliable technology also present potential barriers.

These risks will be addressed through strong governance, diversified funding, strategic partnerships, accessible service design, and continuous consultation with students and stakeholders.

Potential Risks – Contingency Plans

- **Regulatory and Compliance Challenges** – If new regulations or compliance issues affect a Hill College service, the affected program would be reviewed and temporarily suspended while professional guidance is sought. Policies, systems, and program delivery would then be adjusted to meet requirements before services resume.
- **Reduced Funding** – Hill College would prioritise essential education services, reduce non-essential expenditure, seek alternative funding sources, and scale programs according to available resources while maintaining core student support.
- **Technology Disruption** – Students unable to access reliably, alternative delivery methods such as downloadable resources, recorded sessions, low-bandwidth content, or alternative communication platforms would be provided.
- **Low Student Engagement** – If participation is below expectations, Hill College would gather feedback from students, parents, and partners to identify barriers. Programs, marketing, pricing, or delivery methods could then be adapted, with pilot programs used to test changes before further investment.

Potential Risks – Sustainability

Hill College has the potential to remain viable over the long term through a scalable online-first model, diversified funding, strong partnerships, and continued responsiveness to the needs of regional and rural students.

Long-term sustainability will depend on balancing organisational growth with financial capacity, maintaining the quality and accessibility of educational support, and demonstrating meaningful social impact.

Regular evaluation of financial performance, student outcomes, stakeholder needs, and environmental practices will support informed decision-making and sustainable growth.

Potential Risks – Risk Matrix

		IMPACT			
LIKELIHOOD		Catastrophic	Critical	Marginal	Negatable
	Frequent	1	1	1	3
	Probable	1	2	2	3
	Occasional	1	2	3	4
	Remote	2	3	3	4
	Improbable	3	3	3	4
Risk		Extreme	High	Moderate	Low

1. **Funding and Financial Sustainability – High** – Requires funding to develop resources, technology, and events. Without sufficient financial support, operations may not be sustainable.
2. **Low Student Engagement or Market Acceptance – Moderate** – If students do not engage with educational support and programs, growth may be limited.
3. **Cybersecurity and Technology Failure – Moderate** – Technical failures or cyber incidents could interrupt services and affect user confidence.
4. **Legal and Privacy Compliance – Low** – Maintaining compliance with privacy, child safeguarding, and copyright requirements is essential.

Financial Feasibility – Start-up Costs

Start-up area	What it covers	Indicative cost
Business establishment	Registration, initial governance, administration	\$500-\$1,500
Insurance	Initial public liability, professional indemnity and other coverage	\$1,500-\$3,00
Website & platforms	Website, LMS, hosting, domain, and initial development	\$2,500
Software & technology	Email, CRM, video conferencing, design, administration	\$1,000
Branding & marketing launch	Promotional materials, photography, advertising, social media, and launch campaign	\$5,000
Educational resources & program development	Initial learning resources, content development, program materials	\$2,000
Staff onboarding	Recruitment, training, screening, and induction	\$1,000
Community engagement	Student launch activities and stakeholder engagement	\$3,000
Equipment	Computers, cameras, microphones	\$3,000
Contingency	Reserve for unexpected establishment expenses	\$2,000
Estimated total		\$21,500-\$24,000

Financial Feasibility – Revenue Streams

Proposed Revenue Streams

- Student memberships – Free tier and \$100/year Plus membership
- Educational programs - \$20-\$60 workshops; \$80-\$200 short programs
- Partnerships - \$1,500-\$5,000/year
- Sponsorships - \$2,000-\$15,000 packages
- Grants
- Foundation & Donations
- Events
- Merchandise
- Future Premium Services

Projection

Year 1 – Pilot
\$40,000

Year 2 – Growth
\$90,000

Year 3 – Expansion
\$130,000

Hill College will adopt an accessible, value-based pricing strategy designed to balance financial sustainability with its commitment to educational equity.

Financial Feasibility – Pricing Strategy

Hill College Access - Free

Includes:

- Selected educational resources
- Community membership
- News and opportunities
- Selected webinar/events
- Basic study support resources

This means financial circumstances don't prevent a regional student from benefiting from Hill College.

Hill College Plus - \$100/year

Includes:

- Full educational resource library
- Exclusive workshops
- Study and revision programs
- Career and university sessions
- Member events
- Additional learning support
- Discounts on paid programs

\$15/month, \$40/term, or \$60/semester options available.

Financial Feasibility – Cost Structure

Expense Category	Year 1
Educational programs & content	\$4,000
Technology & digital infrastructure	\$6,000
Marketing & engagement	\$5,000
Legal, insurance & compliance	\$5,000
Administration & software	\$3,000
Events & partnerships	\$4,000
Contractors/staffing	\$5,000
Contingency	\$3,000
Total	\$35,000

Financial Feasibility – Funding Sources

- Government & Community Grants – Grants relating to regional education, youth development, digital inclusion, or community development could fund programs and expansion.
- Corporate Sponsorship – Businesses could financially support Hill College, specific programs, events, scholarships, or regional initiatives in exchange for appropriate recognition and partnership opportunities.
- Hill College Foundation - Dedicated Foundation to coordinate fundraising, donations, and philanthropic giving to support long-term educational access.
- School & Institutional Partnerships – Schools, universities, businesses, and community organisations could fund access to programs, jointly deliver initiatives, or contribute resources.

SWOT Analysis

STRENGTHS

- Focused on regional and rural students
- Complements students' existing education
- Combines learning support with broader opportunities
- Online, accessible, and scalable

WEAKNESSES

- New and unestablished brand
- Limited funding and resources at launch
- Reliant on technology and internet access
- Broad offering may be difficult to manage initially

OPPORTUNITIES

- Growing demand for flexible online education
- Partnerships with schools and universities
- Access to grants, sponsorships, and philanthropy
- Potential expansion across regional Australia

THREATS

- Competition from established education providers
- Economic downturns may reduce funding
- Changes to regulations and compliance requirements
- Reputational or student-safety incidents could reduce trust

Timeline

Stage	Indicative Period	Key Actions
Concept Development	Month 1	Finalise the Hill College concept
Consultation	Month 2	Survey regional students, families, and educators – test demand
Business & Governance	Month 3	Establish governance, develop business plans, obtain insurance
Funding & Partnerships	Months 3-6	Secure funding, grants, and sponsorships. Develop partnerships.
Program Development	Months 4-7	Develop online platform, educational resources, learning programs
Pilot Program	Months 7-9	Launch Hill College with a. small group of regional students
Review & Improvements	Months 9-10	Reevaluate student engagement, outcomes, and performance
Official Launch	Months 10-12	Publicly launch Hill College
Regional Growth	Year 2	Increase student membership, establish school partnerships, expand learning resources, and introduce additional programs
Expansion & Sustainability	Years 3-5	Expand into additional communities, strengthen revenue, grow team, and evaluate opportunities.

Summary and Next Steps

Hill College is an online educational organisation designed to bridge gaps in learning and opportunity for regional and rural students. Unlike traditional online schools or tutoring services, Hill College complements existing education by bringing learning support, enrichment, community, and real-world opportunities together in one accessible platform.

Next, Hill College will explore our business plan and marketing plan, and validate the concept through consultation and leadership reflection.
